FACULTY

Dr. Rich Masek, Director

Dr. Rich Masek is a CEREC pioneer having created and developed many innovative CAD/CAM solutions for complex as well as everyday restorative care. He has worked extensively with CEREC 1, 2, 3 and 3D and effectively shares the clinical ramifications of chairside CAD/CAM dentistry. He is the first to have won peer reviewed awards for aesthetics with anterior and posterior CEREC dentistry. His San Diego based private practice focuses on CEREC restorative and cosmetic dentistry. He is internationally recognized as a lecturer, author and authority on the CEREC System. Dr. Masek founded Dentistry By Design, Inc. in 1993, a unique, state-of-the-art, hands-on environment where dentists of all levels can gain confidence and knowledge, distilling his 20+ years of CAD/CAM experience into techniques that are both easily understood and employed.

- Accredited Member of the American Academy of Cosmetic Dentistry (AACD)
- Past President of the Academy of CAD/CAM Dentistry (ACCD)
- Fellow of the Academy of General Dentistry
- Former Vice-President of the International Society of Computerized Dentistry
- Member of the AACD, ACCD, AGD, ADA, and CDA
- Diplomate of the Academy of CAD/CAM Dentistry

Dr. Scott Sauer

Dr. Scott Sauer graduated from Baylor College of Dentistry in 1990. Dr. Sauer has been a CEREC 3D user since August of 2003. He maintains a private practice in Frisco, Texas, which focuses on aesthetic and reconstructive dentistry and is a clinical instructor of CAD/CAM in the department of general dentistry at Baylor College of General Dentistry.

- Sustaining member of the American Academy of Cosmetic Dentistry (AACD)
- Past Secretary of the Academy of CAD/CAM Dentistry (ACCD)
- Member of the Texas Dental Association, the ADA, ACCD, AGD, and local affiliates

Dr. Terry Yacovitch

Dr. Terry Yacovitch is a 1979 graduate of McGill University, Montreal, where he was a clinical instructor and lecturer for over 15 years. CEREC certified in 2003 at the University of Michigan and with advanced training through 2005, he has completed over 2300 hours of continuing education in all facets of dentistry. He currently lectures doctors and their teams (in English and French) on CAD/CAM practice principles and integration.

November

November 4-5, 2010

Posterior Quadrant[©] — Aesthetics and Efficiency
21 CE Credits

Call For Information About These Additional Courses!

- **Advanced Single Unit Regional Courses**

Single Unit Posterior and Anterior Restorations. (courses can be arranged in your local area)

- **Credential Essentials**

Understand the process, requirements, photographic procedures, materials and case selection for the *Academy of CAD/CAM Dentistry* credentialing program.

No matter where you are on your road to CEREC success we have a course designed for you! Courses include lecture, follow-along demonstrations, hands-on exercises, interactive dialogue, and a detailed Dentistry By Design Course reference guide. All courses are held at the Dentistry By Design, Inc. San Diego facility where we feature an intimate course setting of no more than 10 doctors to provide you with the personalized attention you deserve. We invite you to call Cheryl for complete course information and policies at (619) 828-1660 or e-mail dbdcourses@mysmile.com. You may also visit us at www.mysmile.com. Course dates are subject to change.

Program Provider FAGD/MAGD Credit
Approval does not imply acceptance by a state or
provincial board of dentistry or AGD endorsement
10/1/2007 to 9/30/2011

COURSE TUITION

Advanced Single Unit Courses

	DOCTOR	TEAM MEMBER
"Beyond the Basics"™ — Posterior Essentials	\$2995 USD	\$895 USD
"Beyond the Basics"™ — Anterior Essentials	\$2995 USD	\$895 USD

Advanced Multi Unit Courses

"Posterior Quadrant"™ — Aesthetics and Efficiency	\$2995 USD	\$895 USD
"Anterior Multiples"™ — Aesthetics and Efficiency	\$4995 USD	\$1295 USD
"Art and Passion II"™ — Posterior and Anterior Multiples	\$7495 USD	\$1995 USD

A \$500 non-refundable deposit is required to register for a course. Tuition must be paid in full 30 days prior to the course date. Cancellations must be made in writing 30 days prior to course date. Attendees who reschedule or cancel within 2 weeks of the course date will forfeit 50% of tuition excluding the deposit. We are happy to accept Patterson/Sirona Advanced Training Vouchers. Course dates are subject to change.

Our 2010 courses are all designed with a focus towards the needs of CEREC AU / Red Cam users.

DENTISTRY BY DESIGN PRODUCTS

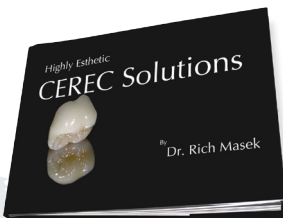

C-STAT 7 Piece Color-Coded Camera Support System
\$295^{USD}

works with CEREC AC!

"C-STAT provides CEREC camera protection and image stabilization of nearly all CEREC Optical impressions. C-STAT is indispensable in the CEREC armamentarium!"

Highly Esthetic CEREC Solutions Book

A CEREC "before" and "after" book and an invaluable new tool for patient education,

motivation, treatment acceptance and internal/external marketing of the CEREC practice. A total of 12 chapters cover a wide range of CEREC possibilities. The 96 page book contains a detailed glossary of dental terms and 100 brilliant color photos explain the CEREC method in crisp, clear detail. This exceptional, patient

friendly book helps patients understand what CEREC is all about and increases CEREC treatment acceptance.

\$295^{USD}

(Includes 1 free strip of 10 Vitablocs/Triluxe I-12)

CEREC COURSE DESCRIPTIONS

Dr. Rich Masek's FAST System® lectures, demonstrations and hands on exercises provide students the necessary tools and understanding for success with aesthetic single and multiple units.

"Beyond the Basics"® **Series** Master Mode training picks up where initial Basic Training leaves off.

Posterior Essentials® provides a sound foundation for understanding "Why you do what you do" for success and learning "How the machine operates".

- Preparation details for simple to complex Inlays, Onlays "Crown-lays" and Crowns.
- Bur recommendations and techniques to create machine friendly, harmonious preparations.
- Learn about Implant Crowns, emergence profiles and lithium disilicate "Blue Blocks".
- Efficient and reliable Red Cam Optical Impressions and C-STAT usage techniques.
- Understand various design modes including Correlation, Database and Antagonist.
- Explore troubleshooting, fitting and cementation of restorations.
- Introduction to Staining & Glazing and Contact Addition.

Anterior Essentials® provides the same sound foundation especially for anterior restorations.

- Anterior preparation details for simple to complex partial coverage Veneers and Crowns.
- Bur recommendations and techniques to achieve excellent fit and aesthetics.
- Efficient, reliable Red Cam Optical Impressions and C-STAT usage techniques.
- Design possibilities for Veneers and Crowns in Correlation, Database and Replication modes.
- Explore troubleshooting, fitting and cementation plus nuances of surface texture, color and shade modification, shade shifting and material selection.
- Introduction to the process of creating highly aesthetic incisal edges through "Cut Back & Layering" techniques plus Stain & Glaze techniques.

"Aesthetics and Efficiency"® **Series** helps realize the rewards of multiple restorations without aesthetic compromise.

Posterior Quadrants builds on "Beyond the Basics"® Posterior Essentials foundations while focusing on multi unit posterior techniques.

- This course features workflow and timing for preparations, design and milling.
- Alternative methods that save time and build confidence are explored.
- Learn to provide more efficient multiple unit chairside treatment.
- Preparation details for posterior restorations are reviewed and refined.
- Learn software techniques for multiple image capture.
- Correlation and image matching success with or without a bite registration.
- Learn how to handle quadrant contacts effectively.
- Advanced Stain & Glaze and techniques, plus Contact Addition.

Anterior Multiples builds on the "Beyond the Basics"® Anterior Essentials foundations adding multi unit esthetic techniques.

- Workflow and timing for multiple anterior restorations designs
- Advanced Photography, Smile Design, Intraoral Mock-up.
- Aesthetic preparation details for anterior Crowns and Veneers.
- Learn software techniques in Correlation, Database and Replication modes.
- Multiple image capture and image matching success.
- Fitting, contacts and cementation techniques.
- Color and shade modification, shade shifting, material selection.
- Advanced "Cut Back & Layering" and Stain & Glaze techniques to create highly aesthetic incisal edges and lifelike restorations.

"Art & Passion"® Reduce time out of the office and immerse yourself into the CEREC experience and enhance your CEREC Success!

"Art & Passion II"® combines both the **"Aesthetics and Efficiency"**® **Posterior Quadrants and Anterior Multiples** courses into a week long, back to back experience, accelerating the learning curve and immersing the student in multiple unit CEREC Success.
